NOTICE OF VIOLATION FOLLOW-UP LETTER**

Dear Mr. Jones:

On January 8, 2010, the Cleveland Division of Air Quality (CDAQ) issued a Notice of Violation requiring Agmet LLC to submit a corrective action plan which included how the facility would discontinue exceeding the lbs/hr and tpy emission limitation for organic compounds on emission unit (EU) P001: Rotary calcining kiln.

On February 11, 2010, CDAQ received a corrective action plan from Agmet LLC concerning inspecting, servicing, conducting an emission test and updating the electronic permit-to-install/operate (PTIO) for EU P001.

On February 22, 2010, CDAQ sent a Receipt of Corrective Action letter to Agmet LLC acknowledging commitments made to service, inspect, conduct emission testing and electronically updating the PTIO for EU P001 specifically requesting an emission performance test be conducted within 120 days of receipt of the letter.

On May 14 and July 22, 2010, Agmet LLC conducted emission testing on EU P001. CDAQ is in receipt of emission test results on August 27, 2010.

The corrective action plan was received in a timely manner and appropriate steps were taken to bring the source into compliance. CDAQ has determined that no further enforcement action is warranted at this time, but reserves its right to take such action in the future if necessary.

CDAQ issues this letter with Ohio EPA's concurrence and does not excuse any violations of local, state and federal laws or regulations regarding air pollution control. Violations of air pollution control laws may be pursued in local court or referred to Ohio EPA or U.S. EPA for further enforcement action. Should you have any questions, please call Linda Kimmy at 216-664-2985. All correspondence with

CDAQ must include the Ohio EPA facility identification number for Agmet LLC: 13-18-40-7499.

Sincerely,

George Baker
Chief of Enforcement, CDAQ
