CERTIFIED MAIL

Mr. Christopher Kitts, General Manager
Huron Lime, Inc.
P. O. Box 451
Huron, Ohio 44839

Dear Mr. Kitts:

This letter shall serve as a follow-up to the stack test letter dated March 8, 2012, sent to your attention. In that letter, Ohio EPA required Huron Lime, Inc. to conduct stack testing that was to commence no later than June 29, 2012, on the three lime kilns identified as emission units P901, P902 and P903 for particulate matter emissions. In accordance with Ohio EPA Engineering Guide #16, actual recorded emission rates of particulate emissions from P901, P902, and P903 were greater than 80% of the allowable emission rate; therefore, the facility being a Title V facility, would be required to test annually to demonstrate compliance with the applicable permit requirements.

To date, Ohio EPA has not received a Notice of Intent to Test (ITT) from the facility regarding this required testing. Because this testing has not been conducted as of the date of this letter, Huron Lime, Inc. is found to be in violation of Ohio Administrative Code (OAC) Rule 3745-15-04(A). It is required that this facility submit an ITT within thirty (30) days from the date of this letter for P901, P902, and P903.

Please be advised that the submission of the requested information to respond to this letter does not constitute waiver of the Ohio EPA's authority to seek civil penalties pursuant to ORC §3704.06. The Ohio EPA will make a decision on whether to pursue or decline to pursue such penalties regarding this matter at a later date.
