Re: Excess Emissions from the sulfur recovery plant CEM (P012)

Dear Mr. Hughes:

I am writing in regards to the fourth quarter, 2008, SRU sulfur dioxide CEM report submitted by the Sunoco, Inc., Toledo refinery, dated January 26, 2009. The sulfur dioxide and oxygen continuous emissions monitoring (CEM) system serving the sulfur recovery unit (SRU) (OEPA emissions unit 0448010246 P012) showed operating time with excess emissions greater than 5% during the reported quarter.

Please be aware that future excess emissions from the sulfur dioxide CEMS may result in a Notice of Violation.

If you have any questions, please feel free to contact me at 419-936-3955.
