CERTIFIED MAIL

Mr. Mark Overholdt
Tiger General
6867 Wooster Pike
Medina, OH 44256

Dear Mr. Overholdt:

This letter concerns the aluminum melting equipment that is currently present at your facility..

Stationary sources of air pollution are required to apply for, and obtain, installation and operation permits from the Ohio Environmental Protection Agency (Ohio EPA). Aluminum melting equipment would require such permits. In addition, you would be required to comply with the National Emission Standards for Hazardous Air Pollutants for Secondary Aluminum Production, 40 CFR Part 63, Subpart RRR.

Please submit a complete Permit to Install/Operate application. I am enclosing the appropriate application along with contact information for Small Business Assistance who can assist you in completing the application. Complete applications must be received by this agency no later than thirty (30) days of the date of the receipt of this letter.

I must advise you that it appears that you may be operating in violation of the requirements of OAC rules 3745-31-02(A) and 3745-35-02(A) which state, in part, that "No person shall cause, permit, or allow the installation and operation of an air contaminant source without first applying for and obtaining a Permit to Install and/or Permit to Operate from the Ohio EPA." Acceptance of complete applications and issuance of appropriate permits does not constitute a waiver of the Ohio EPA authority to seek enforcement action in this case. The decision to pursue, or decline to pursue, enforcement action in this matter will be made at a later date.

If you have questions, please contact me.

Sincerely,

Sean Vadas
Air Quality Engineer
