Mr. Patrick Hewit  
Wayside Market  
190 Center Street  
Seville, OH 44273

Dear Mr. Hewit:

On December 10, 2008, a representative of the Akron Regional Air Quality Management District (ARAQMD) inspected the Wayside Market gasoline dispensing facility located at 190 Center Street in Seville to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

**Inspection results/Deficiencies:**

Record keeping: No record keeping was available for review. **Wayside Market is in violation of OAC rule 3745-21-09 (DDD)(3) which specifies the record keeping that is to be maintained and available for review. If you haven't already, you must obtain a certificate of Stage II vapor recovery training right away.**

Please correct any deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Enclosed is information regarding EPA Regulations for Gasoline Dispensing Facilities.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x4255.

Sincerely,

  
Steven Stakleff, RS  
Sanitarian II
