Dear Mr. Nagra:

On July 2, 2008, a representative of the Akron Regional Air Quality Management District (ARAQMD) inspected the Petrol US gasoline dispensing facility located at 8851 Wooster Pike Road in Seville to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

Record keeping: Ohio EPA Permit to Operate on file has expired.

ARAQMD file: A review of our records found that we notified you by letter, dated 7/18/07, and provided forms for the renewal of the Ohio EPA Permit to Operate that has expired. **Ohio Administrative Code 3745-35-02, requires issuance of a Permit to Operate (PTO) before any air contaminant source can be operated. Ohio Revised Code section 3704.05 prohibits any violation of the Ohio Environmental Protection Agency (Ohio EPA) regulations, and provides for civil and criminal penalties for violations.**

Within 15 days of receipt of this letter, you are required to submit a renewal application. Copies of the forms you need to complete are enclosed. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x4255.

Sincerely,

Steven Stakleff, RS
