Mr. Jitendra Kapasi
527 N. Freedom Street
Ravenna, OH 44266

Dear Mr. Kapasi:

On March 29, 2007, an inspector from the Akron Regional Air Quality Management District (ARAQMD) visited the gasoline dispensing located at 527 N. Freedom Street in Ravenna and found that the facility has been sold to you.

The Ohio EPA Permit to Operate for this facility is not current, and an application for renewal is enclosed. Please complete the application and EAC Form and submit to this Agency as soon as possible.

This facility has Stage II vapor recovery control and is subject to **annual testing, inspections, and record keeping requirements per OAC rule 3745-21-09 (DDD)**. If you are not familiar with the requirements of this rule, please contact me to obtain that information. According to our records, successful Stage II vapor recovery testing was performed on February 2, 2007 at this site. Therefore, Stage II testing is due again on or before February 2, 2008. It is important that you maintain this facility in compliance with the above-cited rule.

Enclosed is a list of Stage II testing companies, and the companies that provide Stage II training are marked. **You are required to obtain a Stage II training certificate.** Please select a training agency and obtain your certificate right away.

Should you have any questions, please contact me at 330/375-2480 x6053.

Sincerely,

Susan Anderson
