Re: Resolution of Violation for Buckeye Terminals – Toledo Station (NORCO)  
Ohio EPA Facility ID 0448010984  
Site Visit Follow-up Letter

Dear Mr. Raiders:

On August 14, 2012, Toledo Division of Environmental Services (TDES) conducted an air quality inspection at the Buckeye Terminals – Toledo Station (NORCO) facility in Toledo, Ohio. On the same day, TDES sent a follow-up letter requesting a copy of records required by Section B.5 of Permit to Install and Operate P0109435 issued on 6/19/2012 that were not available during the site visit. TDES received a copy of the requested records by email on August 16, 2012.

The corrective action was received in a timely manner and the August 16, 2012 submittal shows that the facility has the information required to be recorded by Section B.5 of Permit to Install and Operate P0109435. TDES has determined that no further enforcement action is warranted at this time, but reserves the right to take such action in the future if necessary. Please note, however, that this does not preclude the Director of Ohio EPA from seeking civil penalties pursuant to ORC 3704.06 for not having the required records available on-site for review. The decision on whether to pursue or decline to pursue such penalties regarding this matter is dependent on several factors, one of which is the company's future compliance with applicable Ohio EPA requirements.

If Buckeye Terminals, LLC has any questions or comments concerning this letter, please contact me at the below address, by calling (419)936-3938, or via email at [matthew.stanfield@toledo.oh.gov](mailto:matthew.stanfield@toledo.oh.gov).

Sincerely,

Matthew A. Stanfield  
Staff Professional Engineer
