Dear Mr. Simic:

On November 15, 2007, a representative of the Akron Regional Air Quality Management District (ARAQMD) inspected Simic's Service, Inc. gasoline dispensing facility located at 1321 Ridge Road in Hinckley to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

Record keeping: A copy of the Ohio EPA Permit to Operate, a certificate of Stage II training, and results of Stage II testing completed in 2006 were not in the Station file. **This facility is in violation of OAC rule 3745-21-09 (DDD)(3) which requires what Stage II record keeping is available for review.** Enclosed is a list of companies that provide Stage II testing and training and a copy of your Ohio EPA Permit to Operate.

Please correct any deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x6053.

Sincerely,

Susan Anderson
