Kwik Stop Sunoco
2272 Hialeah Circle
Stow, OH 44224

Dear Mr. Patadia:

On May 21, 2007, a representative of the Akron Regional Air Quality Management District (ARAQMD) inspected the Kwik Stop Sunoco gasoline dispensing facility located at 4379 State Route 43 in Kent to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

Record keeping: There was no record keeping available for review, and there was not a certificate of Stage II training at this site. **Kwik Stop Sunoco is in violation of OAC rule 3745-21-09 (DDD)(3) which specifies what records are to be kept, their availability, and how long they must be kept.**

ARAQMD file: A review of our files found that we have not received the results of Stage II testing that was due to be completed in 2006. Please submit the test results immediately. If testing was not completed in 2006, a letter of explanation must be submitted to this Agency as to why testing was not done.

Please correct the deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Enclosed with this letter is a list of testing companies, including those who also provide Stage II training. Please obtain a certificate of training immediately.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x4255.

Sincerely,

Steven Stakleff, RS
