June 30, 2009

Ms. Darlene Moneskey  
Challenge Enterprises, Inc.  
3084 Massillon Road  
Akron, OH 44312

Dear Ms. Moneskey:

On June 24, 2009, a representative of the Akron Regional Air Quality Management District inspected the Challenge Enterprises gasoline dispensing facility located at 3084 Massillon Road in Akron to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

**Inspection results/Deficiencies:**

Record keeping: There was no record keeping available for review and there was not a certificate of Stage II training. **Challenge Enterprises is in violation of OAC rule 3745-21-09 (DDD)(3) which specifies what records are to be kept, their availability, and how long they must be kept.**

ARAQMD file: According to our records, you were provided with the forms necessary to transfer the Ohio EPA Permit to Operate for this facility with last year's inspection letter. To date, this Agency has not received submittal of that form. **It is a violation of OAC rule 3745-31-02(1)(b) to operate without a permit.**

Within 30 days of receipt of this letter, you are to establish a record keeping file, obtain a certificate of Stage II training, and submit the change of ownership form to this Agency.

Please correct the deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at the site where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x4255.

Sincerely,

Steven Stakleff, RS  
Sanitarian II
