Inspection results/Deficiencies:

Site Deficiency

4022 ARAQMD file: A review of our records found the Ohio EPA Permit to Operate for this facility **expired on 7/14/08.**

It is a violation of OAC rule 3745-31-02(1)(b) to operate without a permit. A Permit to Operate application may be obtained on-line at <http://www.epa.state.oh.us/dapc/permits> or by contacting this Agency. Submit a completed application immediately.

Please correct any deficiencies noted. These facilities will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x6053.

Sincerely,

Susan Anderson
