Mr. Pranav Shaw  
Kwik Stop Sunoco  
4423 State Route 43  
Kent, OH 44240

Dear Mr. Shaw:

On June 22, 2009, a representative of the Akron Regional Air Quality Management District (ARAQMD) inspected the Kwik Stop Sunoco gasoline dispensing facility located at 4379 State Route 43 in Kent to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

**Inspection results/Deficiencies:**

**Record keeping:** There was incomplete record keeping available for review. There was not a certificate of Stage II training, or results of Stage II testing for 2007. **Kwik Stop Sunoco is in violation of OAC rule 3745-21-09 (DDD)(3) which specifies what records are to be kept, their availability, and how long they must be kept.**

**Equipment:** This facility failed Stage II testing on 6/22/09. You have made changes to the gasoline dispensing facility that prevents passing Stage II testing. **Corrections must be made and full compliance Stage II testing successfully completed within 30 days.**

Please correct the deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x6053.

Sincerely,

Susan Anderson  
Sanitarian II
