Dear Mr. Ross:

On April 15, 2011, a representative of the Akron Regional Air Quality Management District inspected the Mac's Circle K #5683 gasoline dispensing facility at 9660 E. Center St. in Windham to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

Record keeping: Incomplete record keeping was available for review. **OAC rule 3745-21-09 (DDD)(3) specifies the record keeping that is to be maintained and available for review.**

Equipment: Stage II testing has not been successfully completed for this facility. **OAC rule 3745-21-09(DDD)(2) specifies testing requirements.** Our records show this facility is scheduled for testing on May 31, 2011.

ARAQMD file: **At the time of inspection it was discovered that this facility has changed ownership. The Ohio EPA Permit to Operate for this facility is current and can be transferred by completion of the necessary form. This facility may be permitted as Permit by Rule. Please submit permit application immediately. It is a violation of OAC rule 3745-31-02(1)(b) to operate without a permit.**

This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x3354.

Sincerely,

Harry Eckert
