**NOTICE OF VIOLATION**

Dear Mr. Farinacci:

On December 16, 2008, this office sent you a warning letter (see attached) following a compliance evaluation earlier that quarter. That letter identified several deficiencies in reporting which were not submitted as required by your synthetic minor permit to install (PTI) and your permit to operate (PTO).

The delinquent reports, dating back to 2004, are part of your regulatory responsibility regarding the operation of air pollution emissions units at your facility. Be advised that we have yet to receive the annual reports required by the synthetic minor PTI since 2005, nor the quarterly deviation reports since 2004.

By no later than fifteen (15) days after receipt of this letter, please submit the missing reports.

Please note that acceptance of any of the above-requested documents by this agency does not waive the authority of this agency, Ohio EPA, or US EPA to seek civil penalties or take other appropriate enforcement action in this case. The decision to pursue, or decline to pursue further action in this case will be made at a later date.

If there are any questions regarding these matters, please contact me at (330) 375-2480.

Sincerely,

L. M. Malcolm  
Administrator
