Dear Mr. Hewit:

On December 1, 2010, a representative of the Akron Regional Air Quality Management District (ARAQMD) inspected the Wayside Market gasoline dispensing facility located at 190 Center Street in Seville to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

Record keeping: No record keeping was available for review at time of inspection. **This facility is in violation of OAC rule 3745-21009 (DDD)(3) which requires Stage II record keeping to be available for review.** You must establish a station file with the required information and have it readily available for review.

Please correct any deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x4255.

Sincerely,

Steven Stakieff, RS
