Dear Mr. Scheponik:

On May 20, 2010, a representative of the Akron Regional Air Quality Management District (ARAQMD) inspected the Giant Eagle Fuel #3601 gasoline dispensing facility located at 1056 Akron Road in Wadsworth to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

Record keeping: No record keeping was available for review. **This facility is in violation of OAC rule 3745-21-09 DDD(3) which requires Stage II record keeping be available for review. There was not a certificate of Stage II training at the site.**

Please correct the deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x4255.

Sincerely,

Steven Stakleff, RS
