RE: EXPIRATION OF OHIO EPA PERMITS TO OPERATE 1667020033 G001 & G002

Dear Mr. Balogna:

According to our records, the Ohio EPA Permit to Operate for the above-mentioned sources expired on December 9, 2008. **Failure to obtain an Ohio EPA Permit to Install/Operate is a violation of OAC rule 3745-31-02(1)(b) which requires permit issuance before any air contaminant source can be operated.**

You have the following two options for renewal:

1. You may apply for a Permit to Install/Operate (PTIO).
2. You may apply for a Permit by Rule (PBR).

Enclosed are the forms necessary to apply for a Permit by Rule (PBR) and a gasoline dispensing facility fact sheet. (A separate PBR or PTIO needs to be submitted for each source). The forms for a PTIO may be obtained on line at <http://epa.ohio.gov/dapc/permits/permits.aspx> or by contacting this Agency. Please submit the renewal forms immediately.

If you have any questions regarding the permitting process, please contact me at 1/800/589-2480 x6053.

Sincerely,

Susan Anderson
