Dear Mr. Walter:

On April 4, 2007, a representative of the Akron Regional Air Quality Management District inspected the Convenient Food Mart #727 gasoline dispensing facility located at 1152 W. Main Street in Kent to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

- 166769027
- Record keeping: The results of Stage II testing completed in 2005, and the Ohio EPA Permit to Operate for this facility were not in the Station file.
- Equipment: Dispenser #4 failed Air to Liquid Ratio testing on this date. Timely repair and retesting is required.
- ARAQMD file: **A review of our file found that the Ohio EPA Permit to Operate for this facility expired on December 17, 2006.** Enclosed are the forms necessary to apply for renewal of this permit, as well as the forms for applying for a Permit by Rule. The Permit by Rule is a paperless permit option available to you. Please choose which permit best suits your business and submit the forms as soon as possible.

Please correct the deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x6053.

Sincerely,

Susan Anderson
