Dear Mr. Barky:

On April 2, 2007, a representative of the Akron Regional Air Quality Management District inspected the Barky Mart gasoline dispensing facility located at 10719 Main Street in Mantua to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

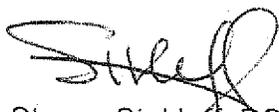

Record keeping: The results of testing completed in 2006 were the only record available for review. **Barky Mart is in violation of OAC rule 3745-21-09 (DDD) specifies what record keeping is to be available.**

ARAQMD file: Remember to schedule Stage II testing for 2007.

Please correct any deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x4255.

Sincerely,

Steven Stakleff, RS
