Mr. Art Schmitz
Certified Oil Company
949 King Avenue
Columbus, OH 43212

Dear Mr. Schmitz:

On September 23, 2010, a representative of the Akron Regional Air Quality Management District inspected the Certified Oil #410 gasoline dispensing facility at 4244 State Route 14 in Ravenna to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

ARAQMD file: A review of our records found that the Ohio EPA Permit to Operate for this facility expired on January 12, 2009. **Failure to obtain an Ohio EPA Permit to Install/Operate is a violation of OAC rule 3745-31-02(1)(b) which requires permit issuance before any air contaminant source can be operated.**

Within 14 days of receipt of this letter, either submit a renewal application for the Ohio EPA Permit to Install/Operate (PTIO) or apply for a Permit by Rule. Both forms are enclosed.

Acceptance of the information requested does not constitute a waiver of this Agency's or the Ohio EPA's authority to seek civil penalties as provided in Section 3704.06 of the Ohio Revised Code. The determination to pursue or decline such penalties will be made at a later date.

Please correct any deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. **If you have any questions, please contact me at 330/375-2480, x6053.**

Sincerely,

Susan Anderson
Sanitarian II
