Mr. Rajbir Singh
Mr. Gurnam S. Lealh
6171 Manchester Road
Akron, OH 44319

Dear Messrs. Singh & Lealh:

The Summit County Auditor records show the gasoline dispensing facility located at 6171 Manchester Road in Akron has been sold to you.

The Ohio EPA Permit to Operate for this facility is current and is transferrable to you as the new owner/operator. To accomplish this transfer, the necessary form is enclosed. Please complete the form and submit to this Agency as soon as possible. It is a violation of **OAC rule 3745-31-02(1)(b) to operate without a permit.**

This facility has Stage II vapor recovery control and is subject to annual testing, inspections, and record keeping requirements per OAC rule 3745-21-09 (DDD). If you are not familiar with the requirements of this rule, please contact me to obtain that information. According to our records, annual Stage II vapor recovery testing was last successfully performed at this location on August 25, 2009. Annual testing for this year is due on or before August 25, 2010. **Please schedule Stage II testing immediately.** It is important that you maintain your facility in compliance with this rule.

Also, enclosed is a flyer that explains EPA regulations that pertain to gasoline dispensing facilities and a list of companies that test Stage II vapor control systems including those that provide Stage II training. The owner/operator must have a certificate of Stage II training and maintain the required record keeping on-site.

Should you have any questions, please contact me at 330/375-2480 x6053

Sincerely,

Susan Anderson
Sanitarian II
