Ms. Darlene Moneskey
Challenge Enterprises, Inc.
3084 Massillon Road
Akron, OH 44312

Dear Ms. Moneskey:

On June 4, 2010, a representative of the Akron Regional Air Quality Management District (ARAQMD) inspected the Challenge Enterprises gasoline dispensing facility located at 3084 Massillon Road in Akron to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

- Record keeping: Incomplete record keeping was available for review. There was not a certificate of Stage II training. **Challenge Enterprises is in violation of OAC rule 3745-21-09 (DDD)(3) which specifies what records are to be kept, their availability, and how long they must be kept.**
- ARAQMD file: According to our records the Ohio EPA Permit to Operate for this facility will expire on 9/27/11. You must apply for renewal before the expiration date of this permit.
- Equipment: This facility failed Stage II testing on 6/4/10. **Repair and retesting are to be completed within 30 days.**

Please correct the deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information on the site where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x6053.

Sincerely,

Susan Anderson
Sanitarian II
