Dear Mr. Ceglia:

On November 1, 2010, a representative of the Akron Regional Air Quality Management District (ARAQMD) inspected the Prime Properties Limited Partnership #16 gasoline dispensing facility located at 265 E. Glenwood Avenue in Akron to determine compliance with OAC 3745-21-09 (DDD) regarding Stage II vapor recovery.

Inspection results/Deficiencies:

Record keeping: No record keeping was available for review. The facility was not open for business until sometime in December. All record keeping is to be in place as required by **OAC rule 3745-21009 (DDD)(3)**.

Please correct any deficiencies noted. This facility will be inspected on an annual basis for compliance with the Stage II vapor recovery rule. It is required that you keep record keeping information at a readily available location for inspection. For this Agency, it is requested that you keep copies of the required information at each individual location where all employees can access them.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact me at 330/375-2480 x6053.

Sincerely,

Susan Anderson
