Mr. Mark Hyde, Plant Manger  
CertainTeed Corporation  
11519 U.S. Route 250N  
Milan, Ohio 44846

Re: Resolution to Notice of Violation (NOV) issued to CertainTeed Corporation  
(0322000017) on June 25, 2012.

Dear Mr. Hyde:

This letter shall serve as notification of the resolution to the Notice of Violation (NOV) issued to the above-referenced facility on June 25, 2012. Emissions testing conducted at the facility on October 11-14, 2011, found that emissions limitations were exceeded in emission units P101 and P102.

Based on the NOV letter, CertainTeed Corporation submitted three separate permit applications to correct source operating rates. In one of the applications, the intent was to rectify the emission violations stated in the NOV letter as well as correct administrative errors associated with the storage tanks. Permit-to-Install (PTI) #P0111888 was issued final on December 3, 2012, as a modification to PTI P0109899 to correct those discrepancies as well as resolve the emission violations associated with P101 and P102.

With the issuance of the PTI, the violations cited in the NOV letter have been resolved. Please note, however, that this does not preclude the Director from seeking civil penalties pursuant to ORC §3704.06 for these violations. The decision on whether to pursue or decline to pursue such penalties regarding this matter is dependent on several factors, one of which is the company's future compliance with applicable Ohio EPA requirements.
