John Frisby
PO Box 685
Jackson, Ohio 45640

Dear Mr. Frisby:

On November 29, 2011, I inspected your project. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

No violations of the terms and conditions of the permit were discovered. Please continue to implement permit requirements as construction continues

As a reminder if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements for permanent storm water management structures as required by the permit.

If there are any questions please contact me at (740) 380-5277.

Sincerely,

Aaron Wolfe
Storm Water Section
Division of Surface Water
