**PUBLIC NOTICE  
NOTICE OF RECEIPT OF 401 APPLICATION**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 certification for a surface coal mine, auger coal mine, and reclamation project on a 265.6 acres site. The application was submitted by Oxford Mining Company, LLC. The project is located on Wilson Road (Township Highway 260) approximately one mile southwest of Morrystown, Ohio, within Sections 25, 26, 32, Township 8, Range 5, Union Township, Belmont County. The Huntington District of the U.S. Army Corps of Engineers Number for this project is LRH-2010-911. The Ohio EPA ID Number for this project is 123921.

As required by the Antidegradation Rule, three alternatives have been submitted for the project. The applicant's proposed preferred degradation alternative, if approved, would impact 2,529 feet of perennial stream, 1,890 feet of intermittent stream, and 251 feet of ephemeral stream, (4,670 feet total), and 0.72 acres of category 1 wetland. The proposed minimal degradation alternative if approved, would impact 317 feet of perennial stream, 672 feet of intermittent stream, and 251 feet of ephemeral stream, (1,240 feet total), and no wetlands. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on streams or wetlands.

The discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of the Stillwater Creek watershed. The review of the application will be conducted, and a decision whether to grant or deny the application will be made, in accordance with Chapters 3745-1 and 3745-32 of the Ohio Administrative Code (OAC). In accordance with OAC 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of the water quality. Other alternatives resulting in lesser or no degradation, or lowering of water quality, will be considered by Ohio EPA during the review process.

No exclusions or waivers, as outlined by Paragraph 3745-1-05 (D) of the Antidegradation Rule (effective as of May 1, 1998), apply or may be granted by the Director of Ohio EPA.

Starting May 16, 2012, copies of the application for the certification and technical support information may be inspected at Ohio EPA/DSW, Lazarus Government Center, 50 West Town Street, Columbus, Ohio, by first calling (614) 644-2001.
