PUBLIC NOTICE
OHIO ENVIRONMENTAL PROTECTION AGENCY
URBAN SETTING DESIGNATION FOR
Grandview Crossing Property Columbus

Public notice is hereby given that the Ohio Environmental Protection Agency (EPA) has received, on February 12, 2013, a request to approve an Urban Setting Designation for approximately 29.89 acres of land located at north of Dublin Road and east of Grandview Avenue, Columbus. This request was submitted by Bruce Savage, Geotechnical Consultants, Inc. on behalf of Franklin County Commissioners and 810 Grandview, LLC.

Pursuant to Ohio Administrative Code 3745-300-10(D), Ohio's Voluntary Action Program (VAP) allows for the voluntary clean-up of contaminated property in Ohio without the risk of state civil liability. Under VAP, ground water cleanup is required where contaminated ground water poses risks to the community or environment.

A USD may be requested for properties participating in the VAP when there is no current or anticipated future use of ground water by local residents for drinking, showering, bathing or cooking. In these areas, an approved USD would lower the cost of cleanup and promote economic redevelopment while still protecting public health and safety.

The Ohio EPA director may approve the request for a USD based on a demonstration by the certified professional that the USD requirements are met and an evaluation of existing or future uses of ground water in the area have been assessed.

Comments regarding this request for USD must be received by the close of business on **[30-45 DAYS FROM DATE OF PUBLICATION OF THIS NOTICE]** Please direct your comments by mail to Fred Myers, Ohio EPA, CDO, 50 West Town Street, P.O. Box 1049, Columbus, Ohio 43216-1049 or by email at fred.myers@epa.state.oh.us. The USD application can be viewed by contacting Fred Myers at 614-728-3830.

Issuance of Draft Air Pollution Permit-To-Install
General Electric Aviation, Evendale Plant**

Issue Date: 03/06/2013
Permit Number: P0112127
Permit Type: Initial Installation

Permit Description: Installation of Test Cell 1 for Production Gas Turbines, installation of Test Cell A20 for R&D Engine Components, and Installation of Four Gas-Fired Air Preheaters at the General Electric Aviation Evendale Plant.

The Director of the Ohio Environmental Protection Agency, 50 West Town Street, Columbus Ohio has issued a draft action of an air pollution control permit-to-install (PTI) for the facility at the location identified above on the date indicated. This draft permit proposes to allow the installation of a test cell to be used for research and development of new jet engine components along with four new air preheaters associated with that test cell and another test cell used for testing of production gas turbine engines.

The proposed allowable air emission rates are listed below, in tons per year.

Pollutant	TPY
PM	9.9
PM ₁₀	9.9
PM _{2.5}	9.9
NO _x	175.9
CO	99.9
VOC	39.9
SO ₂	24.9
GHG	74000

This facility is subject to the applicable provisions of the Non-Attainment New Source Review (NNSR) and the Prevention of Significant Deterioration (PSD) regulations. The proposed project will trigger PSD and NNSR for NOx.

The ambient air impact for criteria pollutants allowed by this permit is as follows:

Pollutant	Averaging Period	Modeled	Rule/Policy Allowed	Basis
