The modification will keep the same of facility-wide HAP(s) restrictions, as well as VOC emissions limitation for emissions unit R001, R002, R003, R004, R005, and R006, combined. This permit is not subject to additional modeling requirements.

The Director of the Ohio Environmental Protection Agency issued the draft permit above. The permit and complete instructions for requesting information or submitting comments may be obtained at: <http://epa.ohio.gov/dapc/permitsonline.aspx> by entering the permit # or: Tracy Gu, Ohio EPA DAPC, Northeast District Office, 2110 East Aurora Road, Twinsburg, OH 44087. Ph: (330) 425-9171.

PUBLIC NOTICE
ISSUANCE OF APPROVAL TO RELOCATE A PORTABLE AIR CONTAMINANT
SOURCE
Lash Paving Inc. Plant 3

Issue Date: 12/31/2013
Relocation Number: REL02756
Facility ID: 0607980001

Facility Location: Lash Paving Inc. Plant 3
101 Service Garage Road,
Cadiz, OH 43907

Facility Description: Asphalt Paving Mixture and Block Manufacturing

Ohio EPA has received a request to relocate a portable air contaminant source for the company identified above. Upon review of the request, the Director has approved the relocation and the facility is authorized to move to 82995 Cadiz-Jewett Rd. Cadiz, OH 43907 upon the publication of this notice.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Josh Mandel," which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
77 South High Street, 17th Floor
Columbus, OH 43215

All inquiries concerning this action may be directed to Ohio EPA DAPC, Southeast District Office at (740) 385-8501.

PUBLIC NOTICE
Ohio EPA Issues Amended Preferred Plan
and to Accept Public Comment for
Green I Landfill Site, Logan, Ohio

On December 31, 2013, Ohio EPA issued an Amended Preferred Plan concerning the Green I Landfill Site located on Hunters Woods Road in Green Township, Hocking County, near the town of Logan, Ohio. The Amended Preferred Plan provides information regarding Site history, summarizes the investigation of Site contamination, provides an analysis of the feasibility of remedial alternatives, and outlines Ohio EPA's amended preferred alternative for remediation.

The original Preferred Plan was issued by Ohio EPA on February 9, 2010 (2010 Preferred Plan), followed by a Decision Document dated November 22, 2010 (2010 Decision Document). The Goodyear Tire & Rubber Company (Goodyear) and the General Electric Corporation (GE) appealed the 2010 Decision Document to the Environmental Review and Appeals Commission (ERAC). Based on the review of available information, including the information provided by Goodyear on January 16, 2013, and in the Ohio EPA approval on July 2, 2012 of Goodyear's request for an exemption pursuant to Ohio Revised Code (ORC) 3734.02(G) to a number of landfill capping requirements, Ohio EPA has modified the selected remedial alternative included in the 2010 Decision Document.

The approximately 10½ acre Green I Landfill began operations in 1970 and ceased accepting waste in 1974. The landfill accepted household, commercial and industrial wastes. Based on the information identified during the remedial investigation and feasibility study, the preferred remedial alternative in the 2010 Preferred Plan for the Site included: the construction of a multi-layer cap; the installation of a leachate (*i.e.*, water that has come into contact with buried landfill wastes) collection system; dewatering and removal of sediments from an affected off-site pond; an environmental covenant establishing activity and use limitations for the Site property; and associated reporting.

Based on the July 2, 2012, exemption request and approval by the Agency, the selected remedial alternative in the 2010 Decision Document has been modified in the Amended Preferred Plan to include a composite cap system involving an impermeable flexible membrane liner, passive gas venting, a clay layer consisting of existing soils at the Site, a drainage layer, and a protective layer and vegetative cover. Additionally, based on the receipt and evaluation of the information provided by Goodyear and GE on January 16, 2013, it will not be necessary to dewater and remove sediment from the off-site pond as required in the 2010 Decision Document.

Ohio EPA will hold a public meeting at its Southeast District Office in Logan, Ohio, at 6:00 pm, on February 12, 2014, to answer questions and to accept comments on the Amended Preferred Plan. In addition to comments received at the public meeting, Ohio EPA will accept written comments through February 21, 2014. Anyone may submit written comments on the Amended Preferred Plan by writing to: Michael Sherron, Site Coordinator, Ohio EPA Southeast District Office, 2195 East Front Street, Logan, Ohio 43138. Comments can also be faxed to Mr. Sherron at (740) 385-6490 or e-mailed to him at michael.sherron@epa.ohio.gov. Ohio EPA will consider all timely comments before taking a final action.

A copy of the Amended Preferred Plan and pertinent investigation documents have been provided to the document repository at the Logan-Hocking Public Library in Logan, Ohio, to allow for public review of these documents. The complete Site record is available for review at Ohio EPA's Southeast District Office by calling Angie Hardesty, Public Records Coordinator, at (740) 385-8501 for an appointment.

Date of Public Notice: December 26, 2013

**PUBLIC NOTICE
NOTICE OF RECEIPT OF 401 APPLICATION AND PUBLIC HEARING**

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA) Division of Surface Water (DSW) has received an application for, and has begun to consider whether to issue or deny, a Clean Water Act Section 401 water quality certification for a project to dredge Toledo Harbor. The application was submitted by Martin Wargo, U.S. Army Corps of Engineers. The project is located in the Toledo Harbor Federal navigation channels. The Buffalo District Corps of Engineers Public Notice Number for this project is TOLEDO-14. The Ohio EPA ID Number for this project is 134288.

As required by the Antidegradation Rule, rule 3745-1-05 of the Ohio Administrative Code (OAC), three alternatives have been submitted for the project. The applicant's proposed preferred alternative, if approved, would involve dredging 1,500,000 cubic yards (CY) of material from the River Channel and Lake Approach Channel and open lake disposal. The applicant's proposed minimal degradation alternative, if approved, would involve dredging 1,100,000 cubic yards (CY) of material from the River Channel and Lake Approach Channel and open lake disposal. The applicant's proposed non-degradation alternative, if approved, would have no direct impacts on waters of the state.

Discharges from the activity, if approved, would result in degradation to, or lowering of, the water quality of Lake Erie. Ohio EPA will review the application, and decide whether to grant or deny the application, in accordance with OAC Chapters 3745-1 and 3745-32. In accordance with OAC rule 3745-1-05, an antidegradation review of the application will be conducted before deciding whether to allow a lowering of water quality. All three proposed alternatives will be considered during the review process. No exclusions or waivers, as outlined by OAC rule 3745-1-05, apply or may be granted.

Starting December 26, 2013, copies of the application and technical support information may be inspected on Ohio EPA-DSW website: www.epa.ohio.gov/dsw

Ohio EPA will hold a public information session and public hearing relative to issues of lower water quality on January 29, 2014 at 6:30 p.m. at Toledo City Council Chambers, One Government Center, 640 Jackson Street, Toledo, Ohio. The public hearing will end when all interested parties have had an opportunity to provide testimony related to the project.

All interested persons are entitled to attend or be represented and give written or oral comments on the proposed project. The purpose of the hearing is to obtain additional information that will be considered by Ohio EPA prior to any further action on the application.

Ohio EPA will continue to accept written comments on the application through the close of business on February 5, 2014. Comments received after this date may not be considered as part of the official record of the hearing. Anyone may submit written comments or requests to be placed on a mailing list for information by writing to: Ohio EPA-DSW, Attention: Permits Processing Unit, P.O. Box 1049, Columbus, Ohio 43216-1049.

**PUBLIC NOTICE
ISSUANCE OF APPROVAL TO RELOCATE A PORTABLE AIR CONTAMINANT
SOURCE
Sidwell Materials IROC RDS #2**

Issue Date: 11/27/2013
Relocation Number: REL02736
Facility ID: 0660015009

Facility Location: Sidwell Materials IROC RDS #2
2500 Twp Hwy 205 NE,
New Lexington, OH 43764

Facility Description: Crushed and Broken Limestone Mining and Quarrying

Ohio EPA has received a request to relocate a portable air contaminant source for the company identified above. Upon review of the request, the Director has approved the relocation and the facility is authorized to move to SR345 East Fultonham. (Sidwell Dupler Plant) upon the publication of this notice.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Josh Mandel," which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
77 South High Street, 17th Floor
Columbus, OH 43215

All inquiries concerning this action may be directed to Ohio EPA DAPC, Southeast District Office at (740)385-8501.
